Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. Regarding claims 1-13, the allowability in combination with the other claimed features is because nowhere in the prior art is there a circuit arrangement for operation of a relay having the relay holding current which is less than the relay switching-on current and the relay switching-on current and the relay holding current are constant currents..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
